Dear Mr. Penney:

This letter addresses your letter and response of January 15, 2008. The following disturbed acreages and bonding determinations referenced in this letter are considered final. You are therefore required to amend your permits with DOGM to reflect these acreages within 30 days. All permits are for exact acres disturbed. At any point, you may amend your permit to mine additional acreage, you are required to submit form MR-REV-SMO/EXP found on the Division's website at <http://www.ogm.utah.gov/minerals/MINERALSFORMS.htm>.

Silver 3-4 S0010057

You state that the road entering the Sliver 3-4 property is an RS 2477 road and should not be counted as disturbance. This is not the case, please read the attached BLM determination. The Division has decided to change the designation of your mine to a Small Mine and will terminate further review of the Large Mine Permit.

The Division will allow this site to fall within the Small Mine category, however; you are not allowed to expand beyond your current footprint or you will be subject to enforcement action. The Division has escalated the 2003 surety \$700 dollars good until 2010. You currently have \$20,000 dollars allocated to this project, so please remit the additional \$700. This surety amount was calculated in coordination with the BLM and is not considered a duplicate bond as you have stated. You may either post the additional \$700 with the BLM or us as long as we are both named on the surety.

White Tiger S0270093

A portion of this site is on BLM land and the other part is on state lands. The total disturbance is less than 1 acre. The surety amount for one acre or less is \$5,900. You currently have \$1,800 dollars under a nationwide bond with the BLM for this site. Your bonding liability is \$5,900. Please remit the \$3,100 dollars for the reclamation surety for this site. You may either post the additional \$3100 with the BLM or us as long as we are both named on the surety. Also, the Notice for this site does not show SITLA as a land owner. Please update the Notice with this information.
